Calvin Knight is Vice President, Operations, where he leads the manufacturing and customer care functions, including sales administration, technical support, repair, and maintenance for FreeFlight Systems. Mr. Knight has over 30 years of electronics industry experience in communications and navigation, beginning with an international assignment as a Radio Relay and Computer Maintenance Technician for the U.S. Air Force. Prior to joining FreeFlight Systems, Mr. Knight was employed by Trimble Navigation where he directed the customer service department for their Avionics Division. Following FreeFlight Systems' acquisition of the Trimble aviation products division, Mr. Knight led the seamless transfer of the customer service functions, including the certified repair station, technical support and administrative departments, to their new location, in Waco, Texas. Mr. Knight's career includes 15 years in the marine industry, where as a business owner, he provided domestic and international service, installation, and support for a broad array of electronics used on shipboard applications. Mr. Knight received a Bachelor of Science degree from Park University, and is an amateur pilot.
