

TWO YEAR UNLIMITED WARRANTY

What does your warranty cover?

The two year limited warranty covers any defect in materials or workmanship of FreeFlight Systems equipment. This warranty applies only to equipment sold after January 1, 1999.

How does your warranty become effective?

Your warranty does not become effective unless or until you mail your completed *Warranty Registration* card to us within 15 days after installation of your FreeFlight Systems equipment.

When does the warranty become effective?

The warranty is effective two years from date of original installation of the equipment, but not more than 30 months from date of purchase. If you receive repair or replacement of equipment under this warranty, the warranty remains in effect on the repaired or replaced equipment for the remainder of the original two-year term.

What will FreeFlight Systems do to correct problems?

FreeFlight Systems will repair any equipment found to be defective in materials or workmanship. If we choose, we may replace the equipment rather than repair it. We will be responsible for the cost of labor and materials for repair or replacement of any equipment found to be defective in materials or workmanship.

How do you make a warranty claim?

To make a warranty claim, please contact your nearest Authorized FreeFlight Systems dealer for repair or replacement of any equipment defective in materials or workmanship. If directed by your Authorized FreeFlight Systems dealer, or if you are unable to contact a FreeFlight Systems dealer, please send the equipment to our factory. To properly pack your equipment, we recommend using the original container and packing materials. Include in the package a copy of the sales receipt or other evidence of date of original purchase and installation. If the equipment was a gift, please provide a statement specifying the date received and installed. Also note your name, address, daytime telephone number, and a description of the defect.
